

NexTier Remote Deposit – the *next level* in electronic processing.

**First there was on-line bill pay,
now there is NexTier Remote Deposit!**

Now you can electronically deposit checks into your NexTier Bank account safely and conveniently from your office.

NexTier Remote Deposit is as easy as 1-2-3

Step 1: Using the check scanner, simply scan the checks you are depositing.

Step 2: Review your deposit. View images of the scanned checks on your PC. The dollar amounts for the checks are automatically read and the deposit is totaled. You have the opportunity to repair any checks that are read incorrectly before going to Step 3.

Step 3: Click on “Submit Deposit” and you’re done! Your deposit is sent to the bank through the internet.

Benefits

- Increase cash flow by increasing funds availability – checks typically clear in 1-2 business days.
- Increased efficiency – make deposits at your convenience, daily, 24/7.
- Simplicity of consolidation of funds – multiple physical locations can all remotely deposit into one account.
- Reduce risk of check fraud – faster check processing and clearing allows you to collect funds sooner.
- Secure processing – the highest level of security available.
